## **School Work Comes Before Stallion Football**

I am playing football for the Lakota Stallions and my responsibility and accountability is to make sure that I put school work ahead of football. The goal is to make sure my school work does not suffer because of football. I pledge to schedule all my school work around football.

My parents, the Stallions, and I put Faith, Family, and School ahead of football.

In an effort to support you and my school work the Stallions require a weekly Progress Report. This report is not a grade card; it is only on my progress and effort.

Each Wednesday or Thursday I will bring this progress report to school to have you fill out and sign so I can turn it in at practice on Thursday night.

Would you please help me to keep school ahead of football.

Thanks,
